

# BACK TO PRACTICE

## LuxaCrown®

A long-lasting chairside crown in one visit

LuxaCrown is a quick and economical alternative for patient restorations that can stop the progression of dental issues. Produced in one easy chairside session, LuxaCrown provides natural-looking, durable long-lasting restorations until your patient is ready for permanent restoration or prosthesis.

### FACT

# 1

#### **Durable, reliable, and beautiful esthetic results**

Provide the best interim dental care with LuxaCrown and transform your patients smiles today with an esthetic and reliable alternative solution that is long-lasting.

### FACT

# 2

#### **One visit limits patient interaction**

With a technique that takes 5 minutes to produce a restoration, patient interaction is limited, allowing more patients to be seen.

### FACT

# 3

#### **Ideal for same day services, emergencies and more**

From crowns and bridges to implants and emergencies, LuxaCrown offers endless solutions with for all your patient needs.

### FACT

# 4

#### **Quick, easy interim dental care**

Produced in a single chairside session, LuxaCrown restorations can be made using a conventional matrix-based technique that provides easy handling and processing without compromising care and esthetics.
